

Cardigan Sustainable Technology Week

6-11 September in the Corn Exchange Gallery,
Cardigan Guild Hall

Information stalls and displays
A chance to ask the expert
Workshops and seminars
Visits to local sites

Displays

All week in the corn exchange gallery

West Wales Ecocentre

Energy efficiency and renewable energy advice.

Sustainergy

Small scale renewable energy systems

Coed Cymru, Ty Unnos

Award winning house design from Welsh wood.

Beacon Stoves 4wood llp

Progress in wood heating.

Quiet Earth Trust

Straw bale building and other low impact building technologies

Little Green Planet

Local eco building tours

West Wales Renewables

Small scale renewable energy

3P Technik

Rainwater Harvesting

Celtic Sustainables

Natural paints and insulation

New Image Bicycles

Electric bicycles

Ymlaen Ceredigion

Open source software for computer systems

EcoPC

Sustainable computer design

Find out about technologies for the future:

Buildings -

Sustainable construction methods
and materials: Insulation, paint, water

Energy and Heating - Wind, wood and solar

Transport - Veg oil, hybrid cars, bicycles

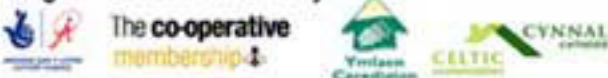

Communication - Sustainable IT

Organised and funded by:

Programme of seminars, workshops and events

All events free, all welcome

**Tuesday,
7 Sep**

Wind Power, 10-3.30 - Workshops and presentations on developing community wind energy installations.

In the morning - Presentations from Dan McCallum of Awel Aman Tawe Community Energy, Peter Newland from Albro Planning & Environmental, information about funding for projects from Ynni'r Fro, an outline of the whole process of developing a project from John Fairlie, and expert advice from Bill Richmond of Farm Wind about landowners developing wind projects and qualifying for the Feed-in Tariff.

In the afternoon there will be opportunities for groups to work on projects with expert advice on hand.

Natural Paint - Talks and workshop on using Natural Paints from John Dison of Earthborn and Matt Grudgings of Nature Paint.

**Wednesday,
8 Sep**

Jane Davidson, 9:30-10 - Keynote speech from the minister for Environment, Sustainability and Housing

Eco Tour, 10-4 - On the Green Dragon bus to visit local buildings - includes straw bale house and mill in St Dogmaels.

Insulating Naturally, 12-2 - Presentations on insulation and air-tightness from Black Mountain and Warmcel.

**Thursday,
9 Sep**

Sustainable IT - Linux Computer Operating System and Open Source Software - Talk by Iestyn Smith and opportunity to try different systems/programmes.

Rainwater Harvesting, 5:30-6:30 - Talk by Glyn Hyett of 3P Technik

**Friday,
10 Sep**

Solar PV, 1-5 - How to install a solar photovoltaic panel, suitable for 12 volt battery off-grid systems - hands on practical workshop with Bob Roberts of Sustainergy.
