

Manufacturers Safety Data Sheet

| | | |
|--|---|--------------------------------|
| Product: | CLM28 | READY MIXED LIME MORTAR/RENDER |
| General information: This product contains no dangerous substances or toxic products. It is in its wet state highly alkaline; after hardening, the lime and sand are definitively combined and insoluble with no further precautions necessary. | | |
| Description of use: | Building Mortar, Render Etc. | |
| Manufacturer: | Cornish Lime Company Ltd Brims Park, Old Callywith Road, Bodmin, Cornwall, England PL31 2DZ Tel: (0)1208 79779 Fax: (0)1208 73744 Email: sales@cornishlime.co.uk Web: www.cornishlime.co.uk | |
| Composition: | Ca(OH) ₂ (Lime Putty*) & coarse sand mixed by volume at a ratio of 1:3 unless otherwise requested *Other names for lime putty: Calcium Hydroxide, Slaked Lime: | |
| Product Density: | 2070 grammes / Litre | Bag Weight: 25 Kgs |
| PH: | 12-13 in water solution | Lime Putty is caustic. |
| EU classification for Ca(OH)₂ Calcium Hydroxide: Corrosive (C) | | |
| Storage Instructions: In polythene bag, keep closed, store at normal temperatures not less than 3°. Keep out of direct sunlight. | | |
| Transport information: Non-hazardous for air, sea and road freight. | | |
| Associated Risk Phrases (R) : Associated Safety Phrases (S) | | |
| R36 | Irritating to eyes. With a risk of serious damage if left untreated (R41) | |
| R38 | Irritating to skin. | |
| R66 | Repeated exposure may cause skin dryness or cracking. | |
| S2: | Store away from children. | |
| S24/25: | Avoid contact with skin and eyes. | |
| S26: | In case of contact with the eyes wash immediately with clean water and contact a specialist. | |
| S37: | Wear appropriate gloves | |
| S39: | Wear eyes and face protection | |
| First Aid Measures - Prevention & Treatment | | |
| Eyes: Avoid any contact. | If the mortar contacts eyes, carefully irrigate with fresh water applied in abundance. If irritation persists obtain medical assistance without delay | |
| Skin: Avoid all prolonged contact. | Wear gloves; at all times rinse skin after contact. Prolonged contact will be harmful to skin and should be treated with care; acidic foodstuffs like citric juice or vinegar will help neutralise the PH. In cases of doubt seek medical advice. | |
| Ingestion: | Rinse mouth with cold water, fruit juice or 1:2 vinegar : water. Do NOT induce vomiting – seek medical attention | |
| Control measures/spillage procedures: | | |
| To avoid staining remove excess immediately by following methods. Either dry brush or wet brush; if persistent dilute with water and brush / scalpel / trowel off; transfer all solid excess/ spillage to suitable container dispose of as non-hazardous waste. Neutralise any spillage with water to protect against an excess of alkaline or soluble salt deposition; product contains sand, which should be prevented from entering waste water/ storm drains. Use large amounts of water to dilute lime spillage. | | |
