

KEIM Algicide Plus Algicide and fungicidal wash

1. Product description

Keim Algicide Plus is an acid free fungicide wash to resist algae and micro organisms on all mineral surfaces.

2. Field of application

Keim Algicide Plus is suitable for all mineral surfaces which exhibit micro organisms. Surfaces to be treated three hours prior to cleaning, as a preventive protection against attack of micro organisms.

3. Product properties

Material characteristics

Easy to apply
Non flammable
Inhibits mould and fungal growth

Density Q= 1.0 g/cm³

4. Application instructions

Substrate preparation

Any algae should be wire brushed to remove all growths and then treated with Keim Algicide Plus, brush or low pressure spray applied and allowed to remain undisturbed for three hours before thoroughly washing off. Where algae growth is severe a further treatment of Keim Algicide Plus should be applied as detailed and allowed to remain and dry on the surface.

Consumption

Approx. 0.2 lt/m² per application.

Consumption rates are offered for guideline purposes only and are quoted for smooth rendered surfaces. Actual rates are the responsibility of the applicator. Project

specifications should be referred to for specific rates.

Cleaning of tools

Clean immediately after use with water.

5. Packaging

5lt & 20lt containers

6. Storage

Approx. 12 months, if kept cool but frost free in tightly closed containers.

7. Safety instructions

Cover surfaces which are not to be treated, in particular plants, etc. Protect the eyes and skin from splashes. Keep out of reach of children.
